

QUALITY POLICY

We, BT Cables Limited, individually and as a team, will perform defect-free work for our customers, co-workers, and suppliers.

We will provide products and services that conform to agreed-upon standards.

BT Cables Limited is committed to understanding and achieving customer requirements, and to the continual improvement of the effectiveness of the quality management system.

The system is regularly reviewed to ensure its continued suitability, effectiveness and development.

Quality objectives are set and targets achieved through an integrated Business Plan and by continuous improvement initiatives.

Training is identified and provided which ensures all employees are fully aware of their responsibilities within the quality management system.

An integrated Business Management System has therefore been designed and implemented to provide a structured framework that embraces the requirements of ISO 9001:2008, ISO 14001:2004, and BS OHSAS 18001:2007.

Kevin Samuel
Managing Director
BT Cables Limited
